Why I Donate To Chest Drive

By MR. & MRS. ROBERT HENNA

Camera Hawaii

We give to the Honolulu Community Chest because we know first hand of the work of one of the Chest-supported agencies — Child and Family Service.

We knew a family with a teenage daughter who was terribly upset and was getting into trouble in school when she found that her father was not her real father. The family went to Child and Family Service and through their counseling help solved the problem very nicely. The fa-

ther legally adopted the girl.

OUR FAMILY was faced with a situation involving a child in Japan and was confronted with problems too big for us to handle. Since we knew of the work Child and Family Service was doing, we asked for their help. Our problems were worked out and we know that, if in the future problems should arise, Child and Family Service will have their doors wide open to help us and anyone who is in need of help.
